

IMMORTAL

\$YEARS

Whitepaper

Last Updated: November 01, 2025

INTRODUCTION:

Our story begins at a crossroads where the passion for innovation and the commitment to social responsibility meet. A group of individuals with diverse tastes but united by a shared vision came together to bring Immortal to life. The idea emerged in a moment of reflection on the transformative potential of cryptocurrencies and the desire to create something unique that transcended the boundaries of the financial market. With a deep sense of empathy towards the needs of our community and an unwavering determination, we embarked on this adventure with the goal of making a significant difference in the world.

CRYPTO MARKET:

In the exciting world of cryptocurrencies, we see a future full of infinite possibilities. The next bullrun is just around the corner, and we are prepared to take full advantage of it. According to data collected by experts in the field, the cryptocurrency market is expected to experience exponential growth in the coming years, and Immortal is positioned to benefit from this boom. Our unique token burning strategy and strategic commissions will allow us to increase the value of the \$YEARS token, providing our investors with an attractive return on investment. Additionally, our projections indicate constant and sustained growth in the token's value, ensuring a safe and profitable long-term investment.

COMPETITION:

In a market saturated with memecoins, we stand out for our uniqueness and our long-term vision. While other memecoins focus solely on speculation and quick profits, Immortal is committed to making a real difference in the world. Our focus on social responsibility, technological innovation, and transparency sets us apart from the competition and positions us as leaders in the cryptocurrency space.

STRATEGIC PARTNERS:

Although we cannot yet reveal all the details, we have established conversations with renowned projects in the world of cryptocurrencies for future collaborations. These strategic partnerships will allow us to expand our operations, access new markets, and broaden our global reach. We are excited about the opportunities these collaborations will bring us and are committed to working closely with our partners to achieve our shared goals.

SMART CONTRACT:

Security and reliability are our top priorities when it comes to our smart contract. We have conducted rigorous testing and audits to ensure that our smart contract is impenetrable and resistant to any attempt at manipulation or compromise. Our blockchain experts have worked tirelessly to develop a smart contract that is truly immortal, ensuring the protection of our users' funds and the integrity of our project.

CONCEPT:

Immortal is more than just a memecoin; it is a symbol of hope and possibility in a world full of uncertainty. Inspired by the vibrant atmosphere of the Day of the Dead, our \$YEARS token represents a unique opportunity to invest in the future of humanity. With a focus on social responsibility, technological innovation, and commitment to the well-being of our community, Immortal is leading the way towards a world where life is truly immortal.

MISSION:

Our mission at Immortal is simple but powerful: to redefine the narrative around cryptocurrency investment and demonstrate that innovation and social responsibility can go hand in hand. Through our motto "Buy or Die", we aspire to inspire our investors to participate in a journey towards financial success and positive impact on the world. We are committed to making a real difference in people's lives and the future of our planet.

COMMISSION:

We have implemented a unique commission system on every sale transaction that will benefit investors by increasing the value of the \$YEARS token. This commission is designed to fluctuate between 0-2%. Within this commission, a portion will be allocated to token burning and the rest will be used to fund marketing, development, and charity initiatives. We are committed to ensuring a fair distribution of funds and maintaining a healthy and stable chart for the continuous growth of the project.

CHARITY:

We believe in the importance of giving back to the community and the power of philanthropy to drive change. That's why a significant portion of our revenue is dedicated to charity initiatives, research, and scientific and medical development. We are committed to using our resources to address one of humanity's most pressing challenges: the pursuit of longevity and vitality. With every transaction, we are contributing to a brighter and more hopeful future for all.

TEAM:

Our team is made up of passionate visionaries and experts in their respective fields. From the marketing department to the development team, each member brings a unique combination of skills and experience, backed by an unwavering dedication to Immortal's mission. We are committed to working together to achieve our shared goals and make a real difference in the world.

OBJECTIVES:

Our objectives are clear and ambitious. We seek to take "YEARS" to the top of the cryptocurrency market, establishing it as a benchmark for innovation and responsibility in the blockchain ecosystem. Additionally, we are committed to advancing scientific and medical research that brings us closer and closer to the possibility of significantly extending human life. We are determined to overcome all obstacles and reach new heights of success and fulfillment.

RESPONSIBILITY:

We recognize the importance of transparency and accountability in all our operations. We advise our investors to invest wisely and only with funds that they do not need in their daily lives. The cryptocurrency market is extremely volatile and can lead to both very large gains and losses in a matter of minutes. Beware of scammers. These days, scammers will try any strategy, such as using tokens with the same name, identical websites, and sometimes even trying to talk to users privately, devising complex strategies to steal from you. Be very careful. Only our official website, <https://immortalyears.com/> and our contract are official (you can find it at the end of this whitepaper). Do not trust other links and make sure you know where you are sending your tokens. We are committed to providing regular updates on our progress, changes, and improvements to the Immortal project.

TOKEN ECONOMICS:

At Immortal, we pride ourselves on offering a solid and sustainable token economy that benefits all our investors. As mentioned earlier, we have implemented token burning measures that ensure scarcity and continuous appreciation of our \$YEARS token. The token was launched with 1 million tokens and there can be no more. The token will reduce its units due to the burning system that will revalue the price. We will adapt to each market situation to take the appropriate measures and favor a healthy and sustainable economy in the long term.

PROGRESSIVE BURN:

This fee and therefore the burn applies exclusively to SELL transactions, never to buys.

At IMMORTAL, we have implemented a progressive burn mechanism designed to systematically reduce the total supply of \$YEARS tokens over time, enhancing scarcity and supporting long-term value appreciation. This system operates on every sale transaction where a fee (fluctuating between 0-2%) is applied. From this fee, a dynamic percentage is allocated to token burning—permanently removing tokens from circulation while the remaining portion funds essential project initiatives such as marketing, development, and charity efforts.

As the supply decreases due to ongoing burns, the burn percentage progressively reduces, reaching 50% when the total supply hits 900,000 tokens. This linear adjustment ensures a balanced approach: early burns are aggressive to quickly establish scarcity, while later burns allow more resources for growth and community support. The formula for the burn percentage is calculated as follows:

$$\text{Burn Percentage} = 100\% - [50\% \times (1,000,000 - \text{Current Supply}) / 100,000]$$

Practical Example:

The rest funds marketing, dev, and charity.

Examples (on a 2% fee):

- 990K supply → 95% burned → 1.90% of trade burned, 0.10% for dev
- 950K supply → 75% burned → 1.50% burned, 0.50% for dev
- 920K supply → 60% burned → 1.20% burned, 0.80% for dev
- 900K supply → 50% burned → 1.00% burned, 1.00% for dev

EDUCATION:

We would like to highlight Immortal's commitment to providing educational resources to help investors better understand the world of cryptocurrencies and make informed decisions about their investments. Through our blog, we will publish valuable information and interesting content related to the crypto world. This will not only strengthen the Immortal community but also help empower people to participate more actively and safely in the cryptographic ecosystem.

HELP AND SUPPORT:

We care deeply about the satisfaction and peace of mind of our investors. That's why we have a dedicated team of moderators and a 24/7 support system ready to help resolve any questions or concerns you may have. Our moderators are experts in the field of cryptocurrencies and are committed to maintaining a safe and positive community for all investors. They are available on our social media platforms and communication channels to address any issues that may arise and to provide guidance and assistance when needed. Additionally, our support system is designed to provide quick and efficient help to all investors who need it. You can contact us through our social networks, including Telegram, Twitter, and Discord, where our team will be happy to assist you and resolve your doubts in real time. Whether you have questions about the investment process, need help solving a technical issue, or simply want more information about our project, our support team is here to help you every step of the way. At Immortal, your satisfaction and peace of mind are our top priority.

COMMUNITY:

At Immortal, we deeply value the participation and engagement of our community. We believe that the strength of our project lies in collaboration and connection with our investors and followers. That's why we are committed to maintaining an active and vibrant community. To achieve this, we will organize exciting giveaways and special events that involve our community and give them the opportunity to win exclusive prizes. Additionally, we will foster interaction and dialogue through our social media platforms and communication channels, creating a space where everyone can contribute and feel part of the Immortal family.
